PLEASE REVIEW IT CAREFULLY. THE PRIVACY OF YOUR MEDICAL INFORMATION IS IMPORTANT TO US.

Our Legal Duty

We, Potomac River Clinic, are required by applicable federal and state laws to maintain the privacy of your child's protected health information. We are also required to give you this notice about our privacy practices, our legal duties, and your rights concerning your child's protected health information. We must follow the privacy practices that are described in this notice while it is in effect. This notice takes effect July 1, 2021, and will remain in effect until we replace it.

We reserve the right to change our privacy practices and the terms of this notice at any time, provided that such changes are permitted by applicable law. We reserve the right to make the changes in our privacy practices and the new terms of our notice effective for all protected health information that we maintain, including medical information we created or received before we made the changes.

You may request a copy of our notice (or any subsequent revised notice) at any time. For more information about our privacy practices, or for additional copies of this notice, please contact us by using the information listed at the end of this notice.

Uses and Disclosures of Protected Health Information

We will use and disclose your child's protected health information about your child for treatment, payment, and health care operations. The following are examples of the types of uses and disclosures of your child's protected health care information that may occur. These examples are not meant to be exhaustive, but to describe the types of uses and disclosures that may be made by our office.

Treatment: We will use and disclose your child's protected health information to provide, coordinate or manage your child's health care and any related services. This includes the coordination or management of your child's health care with a third party. For example, we would disclose your child's protected health information, as necessary, to a home health agency that provides care to your child. We will also disclose your child's protected health information to other physicians who may be treating your child. For example, your child's protected health information may be provided to a physician to whom you and your child have been referred, to ensure that the physician has the necessary information to diagnose or treat your child.

In addition, we may disclose your child's protected health information from time to time to another physician or health care provider (e.g., a specialist or laboratory) who, at the request of your physician, becomes involved in your child's care by providing assistance with your child's health care diagnosis or treatment to your physician.

Payment: Your child's protected health information will be used, as needed, to obtain payment for your child's health care services. This may include certain activities that your health insurance plan may undertake before it approves or pays for the health care services we recommend for your child, such as: making a determination of eligibility or coverage for insurance benefits, reviewing services provided to your child for protected health necessity, and undertaking utilization review activities.

Health Care Operations: We may use or disclose, as needed, your child's protected health information in order to conduct certain business and operational activities. These activities include, but are not limited to, quality assessment activities, employee review activities, training of students, licensing, and conducting or arranging for other business activities.

For example, we may use a sign-in sheet at the registration desk where you will be asked to sign your name as the parent or guardian of your child. We may also call you and/or your child by name in the waiting room when your child's doctor is ready to see you and your child. We may use or disclose your child's protected health information, as necessary, to contact you by telephone or mail a reminder to you regarding your child's appointment.

We will share your child's protected health information with third party "business associates" that perform various activities (e.g., billing, transcription services) for our practice. Whenever an arrangement between our office and a business associate involves the use or disclosure of your child's protected health information, we will have a written contract that contains terms that will protect the privacy of your child's protected health information.

We may use or disclose your child's protected health information, as necessary, to provide you with information about treatment alternatives or other health-related benefits and services that may be of interest to you and your child's health and/or treatment. We may also use and disclose your child's protected health information for other marketing activities. For example, your child's name and address may be used to send you a newsletter about our practice and the services we offer. We may also send you information about products or services that we believe may be beneficial to your child. You may contact us to request that these materials not be sent to you.

Uses and Disclosures Based On Your Written Authorization: Other uses and disclosures of your child's protected health information will be made only with your authorization, unless otherwise permitted or required by law as described below.

You may give us written authorization to use your child's protected health information or to disclose it to anyone for any purpose. If you give us an authorization, you may revoke it in writing at any time. Your revocation will not affect any use or disclosures permitted by your authorization while it was in effect. Without your written authorization, we will not disclose your child's health care information except as described in this notice.

Others Involved in Your Health Care: Unless you object, we may disclose to a member of your family, a relative, a close friend or any other person you identify, your child's protected health information that directly relates to that person's involvement in your child's health care. If you are unable to agree or object to such a disclosure, we may disclose such information as necessary if we determine that it is in your child's best interest based on our professional judgment. We may use or disclose protected health information to notify or assist in notifying a family member, personal representative or any other person that is responsible for your child's care of your location, general condition or death.

Marketing: We may use your child's protected health information to contact you with information about treatment alternatives that may be of interest to you and your child. We may disclose your child's protected health information to a business associate to assist us in these activities. Unless the information is provided to you by a general newsletter or in person or is for products or services of nominal value, you may opt out of receiving further such information by contacting us by using the information listed at the end of this notice.

Research; Death; Organ Donation: We may use or disclose your child's protected health information for research purposes in limited circumstances. We may disclose the protected health information of a deceased person to a coroner, protected health examiner, funeral director or organ procurement organization for certain purposes.

Oversight agencies seeking this information include government agencies that oversee the health care system, government benefit programs, other government regulatory programs and civil rights laws.

Abuse or Neglect: We may disclose your child's protected health information to a public health authority that is authorized by law to receive reports of child abuse or neglect. In addition, we may disclose your child's protected health information if we believe that your child has been a victim of abuse, neglect, or domestic violence to the governmental entity or agency authorized to receive such information. In this case, the disclosure will be made consistent with the requirements of applicable federal and state laws.

Food and Drug Administration: We may disclose your child's protected health information to a person or company required by the Food and Drug Administration to report adverse events; product defects or problems or biologic product deviations; to track products; to enable product recalls; to make repairs or replacements; or to conduct post marketing surveillance, as required.

Criminal Activity: Consistent with applicable federal and state laws, we may disclose your child's protected health information, if we believe that the use or disclosure is necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public. We may also disclose protected health information if it is necessary for law enforcement authorities to identify or apprehend an individual.

Required by Law: We may use or disclose your child's protected health information when we are required to do so by law. For example, we must disclose your child's protected health information to the U.S. Department of Health and Human Services upon request for purposes of determining whether we are in compliance with federal privacy laws. We may disclose your child's protected health information when authorized by workers' compensation or similar laws.

Process and Proceedings: We may disclose your child's protected health information in response to a court or administrative order, subpoena, discovery request or other lawful process, under certain circumstances. Under limited circumstances, such as a court order, warrant or grand jury subpoena, we may disclose your child's protected health information to law enforcement officials.

Law Enforcement: We may disclose limited information to law enforcement officials concerning the protected health information of a suspect, fugitive, material witness, crime victim, or missing person. We may disclose the protected health information of an inmate or other person in lawful custody to a law enforcement official or correctional institution under certain circumstances. We may disclose protected health information where necessary to assist law enforcement officials to capture an individual who has admitted to participation in a crime or has escaped from lawful custody.

After April 14, 2009, the accounting will be provided to you for the past six (6) years. We will provide you with the date on which we made the disclosure, the name of the person or entity to whom we disclosed your child's protected health information, a description of the protected health information we disclosed, the reason for the disclosure, and certain other information.
